

H32D AUTOCAL Crimping Machine

Product group 900
Crimping force in kN 2,000

Quality in focus! H32D AUTOCAL is a robust machine providing accurate crimping results delivered in a modern designed package. It's equipped with a user friendly digital control that gives faster and safer entry of crimping data. With our automatic calibration system the crimper warns you in preset intervals that calibration is needed. The calibration is performed in 10 seconds! No need for an expensive service technician to come and calibrate. H32D is ideally suited for small and medium size productions. All parts are made of high quality steel with rust protective treatment to ensure long lifetime. Crimping range up to 87 mm 200 ton crimping force Hose size up to 2" Simple calibration Fast and easy operation User friendly digital control Ergonomic operation Easy storage of dies Accurate Reliable
