

H16P Portable Crimping Machine with LED Indicator

Product group 900
Crimping force in kN 955

The perfect solution for repair work on-site with a weight of only 20kg. H16P is equipped with a carrying handle and a two meter long hose which enables crimping at the most inaccessible places. LED light and buzzer simplifies the operation, to ensure that the crimp diameter is reached. All parts are made of high quality steel with rust protective treatment to ensure long lifetime. As power source, you can chose hand pump or air driven pump. Pump should be purchased separately.
